Billing Software

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

Proj #

This project provides planned funding to upgrade the billing software used by Utilities and Accounting in conjunction with a larger IT upgrade.

Operating impacts to be determined as the project develops.

Fairhaven Well House Rehabilitation

District Location: 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

Proj #

This project provides planned funding to rehabilitate Fairhaven Well House, located on Sykesville Road. Included are chemical-feed pumps, surveillance cameras, pipes, and electric/software upgrades.

Operating impacts to be determined as the project develops.

Freedom Sewer Rehabilitation

District Location: 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

6444

This project provides ongoing funding for the inspection and lining repairs of the sanitary sewer mains and laterals. Lining the pipe increases the life of the sewer mains by sealing joints and cracks, preventing inflow and infiltration from damaging the system.

Freedom Wells and Connections

District Location: 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

6445

This project provides funding to add wells to provide additional water to the Freedom service area. Providing more sources of water reduces dependency on Liberty Reservoir.

Operating impacts to be determined as the project develops.

Hydrant Replacements

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

6359

This project provides funding to replace hydrants in Bark Hill, Pleasant Valley, and Freedom area water systems. This funding covers replacement of the remaining 40 of the 900 hydrants in these areas.

Patapsco Valley Pump Station Upgrade

District Location: 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

Proj #

This project provides planned funding to rehabilitate and expand the Patapsco Valley Pump Station, located on Swallow Road in Sykesville, to prepare for anticipated additional flows. Included are new pumps, controls, grinder, generator, wet well relocation, roofing, bypass valving, fencing, and paving repairs.

Pleasant Valley WWTP Rehabilitation

District Location: 1

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

Proj #

This project provides planned funding for the rehabilitation of the Pleasant Valley Wastewater Treatment Plant (WWTP), which was put in service in 1997. The scope includes replacement of pumps, blowers, generator, UV equipment, electric/control upgrades, painting of the sequence batch reactor tanks, and other site improvements.

Sewer Grinder Installation/Rehabilitation

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

Proj #

This project provides funding for the installation of new grinders and the rehabilitation of existing grinders at pump stations throughout the Hampstead and Freedom sewer service areas. Planned funding will increase as a long term plan for grinder replacement develops.

Sewer Manhole Rehabilitation

District Location: 2 and 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

6403

This project provides ongoing funding to rehabilitate the Freedom area's 3,000 and Hampstead's 1,000 sanitary sewer manholes. Repair strategies include: foam injection rehabilitation, spray-on lining structure rehabilitation, addition of manhole risers to raise the top of structures, and replacement of existing manhole covers with sealed structures. New manhole installations are also included with this project.

Sewer Pipe Repair, Replacement, and New Installations

District Location: 2 and 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

Proj #

This project provides ongoing funding for various sewer repairs including point repairs, removal/replacement, pipe bursting, underground directional drilling, and new pipe installations for existing residents with failing sewer systems. Included is clearing of off-road easements to maintain sewer pipes

South Carroll Wastewater Treatment Facility Rehabilitation

District Location: 4

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

Proj #

This project provides planned funding for the rehabilitation of the South Carroll Wastewater Treatment Facility, which was put into service in 1992 and serves South Carroll High School. Included is replacement of pumps, blowers, and a generator, as well as electrical and control upgrades, and other site improvements including repair of a failing outfall and headwall.

Standby Generator Replacement

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

6035

This project provides ongoing funding for replacement of the standby generator fleet. Currently, there are a total of 24 standby generators at the wastewater pumping stations and wastewater treatment plant and a total of four at the water treatment facilities and water tanks. The standby generators are critical to providing water and sewer service should a power failure occur.

Sykesville Pump Station Expansion

District Location: 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

Proj #

This project provides planned funding to expand capacity for anticipated future flows at the Sykesville Pump Station, located on Main Street in Sykesville.

Town of Sykesville Streetscape Water and Sewer Upgrades

District Location: 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

6431

This project provides funding to line the existing clay water and sewer lines along Main Street. Included is the possibility of removing, replacing, and relocating lines to coincide with the Town of Sykesville Streetscape project.

Water Main Loops

District Location: 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

6425

This project provides ongoing funding to connect various water mains to provide adequate looping in the Freedom water system. Looping of water mains is the connection of dead ends of two separate water lines. Connecting these lines improves water flow throughout the system and helps maintain and improve water quality. Listed below are planned sites:

- Calvert Way and Dale Drive 8" Loop (925')
- Kennard Court and Lawrence Court 8" Loop (510')
- Sussex Court and Breckenridge Court 8" Loop (1,650')
- Brunswick Drive and Woodbridge Lane 8" Loop (1,050')
- Slacks Road from Quad Lane to Macbeth Way 8" Loop (1,150')
- Oklahoma Avenue (Sykesville) from Main Street to Schoolhouse Road 8" Loop (1,300')
- Ronsdale Road to Linton Road 8" Loop (1,640')

Water Main Valve Replacements

District Location: 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

6428

This project provides ongoing funding to replace the County's water line valves and blow-off valves. Water line valves are needed to shut off lines in the event of water main breaks or adding new connections into the system. Blow-off valves allow for water line flushing to reduce the building of sediment and stagnant water. The planned annual allocation will fund approximately 25 valve replacements.

Water Meters

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

6311

This project provides ongoing funding for the upgrade and replacement of 10,000 existing meters. The upgrade includes software and hardware equipment that will enable staff to collect meter readings while driving by homes and could also include replacement of, or conversion to, meter vaults. Conversion moves the meter from inside private houses to a vault located in the County right-of-way to allow easier maintenance and meter readings.

Water Service Line Replacement

District Location: 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

6429

This project provides ongoing funding to replace water service lines in the Freedom area. Leaking water laterals lead to increased operational costs and loss of treated water. The annual allocation for this project funds the replacement of approximately 80-90 water service lines each year.

Water/Sewer Studies

District Location: 2 and 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

6385

This project provides funding for a study of the Freedom water treatment, storage, and distribution systems, and of the Freedom and Hampstead sewer collection systems. Studies will include asset conditions, expected life, and capacity assessment.

Winfield Pump Station Rehabilitation

District Location: 4

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

Proj #

This project provides planned funding to rehabilitate the Winfield Pump Station, which was built in 1993, with new pumps, control systems, roofing, generator, bypass valving, and paving. This pump station was built by the Board of Education for Winfield Elementary on West Old Liberty Road in Sykesville.
