Freedom District Relief Sewer No.10 (Sykesville Interceptor)

District Location: 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

6382

This project provides funding for the installation of a new sanitary sewer main and pumping station. The current gravity sewer main runs parallel to the railroad tracks and the South Branch Patapsco River. This section of sanitary sewer main was constructed in 1969, has limited access, and a history of problems.

Freedom Sewer Rehabilitation

District Location: 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

6444

This project provides ongoing funding for the inspection and lining repairs of the Freedom area sanitary sewer mains and laterals. Lining the pipe increases the life of the sewer system by sealing the joints and cracks, and preventing inflow and infiltration from damaging the system.

Freedom WTP Membrane Replacement

District Location: 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

6434

This project provides ongoing funding to replace the membrane filters at the Freedom Water Treatment Plant, which were replaced in FY 16. Funding is being accumulated for replacement of the filters.

Freedom Wells and Connections

District Location: 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

6445

This project provides funding to add several wells to provide additional water to the Freedom service area. Providing more sources of water reduces dependency on Liberty Reservoir and allows redundancy in case of an emergency shut down at the Freedom Water Treatment Plant.

Hampstead Sewer Rehabilitation

District Location: 2

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

6446

This project provides ongoing funding for the inspection and lining repairs of the Hampstead area sanitary sewer mains and laterals, including clearing of off-road easements. Lining the pipe increases the life of the sewer system by sealing the joints and cracks, and preventing inflow and infiltration from damaging the system.

Hampstead WWTP Effluent Line

District Location: 2

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

6447

This project provides funding for a new effluent line from the Hampstead Wastewater Treatment Plant. The line will run from the Treatment Plant and discharge into Deep Run. This project was previously included in the Hampstead WWTP Enhanced Nutrient Removal Upgrade project.

Hydrant Replacements

District Location: 1 and 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

6359

This project provides ongoing funding to replace 900 hydrants in Bark Hill, Pleasant Valley, and Freedom area water systems. The annual allocation for this project funds the replacement of approximately 25 hydrants.

North Pump Station Replacement

District Location: 2

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

6418

This project provides funding for the replacement and expansion of North Pump Station along Route 30 in Hampstead. The existing station is at capacity with no room for expansion.

Patapsco Valley Pump Station Upgrade

District Location: 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

Proj #

This project provides planned funding to rehabilitate and expand the Patapsco Valley Pump Station, built in 2000. Included are new pumps, controls, grinder, generator, roofing, bypass valving, fencing and paving repairs.

	FY 18	FY 19	FY 20	FY 21	FY 22	FY 23	Prior Allocation	Balance to Complete	Total Project Cost

Pleasant Valley WWTP Rehabilitation

District Location: 1

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

Proj #

This project provides planned funding for the rehabilitation of the Pleasant Valley Wastewater Treatment Facility, which was put into service in 1997. The scope includes replacement of pumps, blowers, generator, UV equipment, as well as electrical/control upgrades, painting of the sequence batch reactor tanks, and other site improvements.

Runnymede SBR Rehabilitation

District Location: 1

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

Proj #

This project provides planned funding for the rehabilitation of the Runnymede sequential batch reactor (SBR) Wastewater Treatment Facility, which was put into service in 1994 and serves Runnymede Elementary School. The scope includes replacement of pumps, UV replacement blowers, generator, transfer switch, as well as electrical/control upgrades, painting of the sequence batch reactor tanks, and other site improvements.

Sewer Manhole Rehabilitation

District Location: 2 and 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

6403

This project provides ongoing funding to rehabilitate the Freedom area's 3,000 sanitary sewer manholes and Hampstead's 1,000 sanitary sewer manholes. Repair strategies include: foam injection rehabilitation, spray-on lining structure rehabilitation, addition of manhole risers to raise the top of structures, and replacement of existing manhole covers with sealed structures.

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

6035

This project provides funding for replacement of the standby generator fleet. Currently, there are 24 standby generators at the wastewater pumping stations and wastewater treatment plants, and 4 at the water treatment facilities and water tanks. The standby generators are critical to providing water and sewer service should a power failure occur. Beginning in FY 23, funding for replacement generators will be included in individual facility renovation projects.

Sykesville Pump Station Replacement

District Location: 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

Proj #

This project provides planned funding for the replacement and expansion of the Sykesville Pump Station, located on Maryland Route 851. The existing station is at capacity with no room for expansion.

Tank Painting, Repair and Rehabilitation

District Location: 1 and 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

6332

This project provides ongoing funding for protective coatings to both interior and exterior surfaces, addressing safety concerns, performing ongoing spot maintenance on coatings to protect assets from corrosion, trimming and/or removal of trees around the tank that affect the coating, and general security maintenance upgrades of water storage tanks. The following water tank sites are planned for painting as funds become available:

- Kabik
- Martz
- Liberty
- Bartholow
- Linton
- Bark Hill

Town of Sykesville Streetscape Water and Sewer Upgrades

District Location: 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

6431

This project provides planned funding to replace the water and sewer infrastructure on Maryland Route 851. This project is planned to coincide with the Town of Sykesville Streetscape project.

Town of Sykesville Water and Sewer Upgrades

District Location: 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

Proj #

This project provides planned funding to rehabilitate or replace the cast iron water mains and clay sanitary sewer lines in the Town of Sykesville. The Bureau of Utilities operates and maintains the water and sewer lines in the Town of Sykesville, which are between 50 and 90 years old. The condition of lines has led to water and sanitary sewer breaks, affecting both businesses and residents.

Water Main Valve Replacements

Stephanie Krome, Management and Budget Analyst (410) 386-2082

6428

This project provides ongoing funding to replace the County's water line valves and blow-off valves. Water line valves are needed to shut off lines in the event of water main breaks or new main connections into the system. Blow-off valves allow for waterline flushing to reduce the buildup of sediment and stagnant water. The planned annual allocation will fund approximately 40 valve replacements.

Water Meters

Stephanie Krome, Management and Budget Analyst (410) 386-2082

6311

This project provides ongoing funding for the upgrade and replacement of 10,000 existing meters. The upgrade includes software and hardware equipment that will enable staff to collect meter readings while driving by homes and could also include replacement of, or conversion to, meter vaults. Conversion moves the meter from inside private houses to a vault located in the County right-of-way to allow easier maintenance and meter readings.

Water Service Line Replacement

District Location: 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

6429

This project provides ongoing funding to replace water service lines in the Freedom area of the County. Leaking water laterals increase operational costs and the loss of treated water. The annual allocation for this project funds the replacement of approximately 50-60 water service lines each year.

Water/Sewer Studies

District Location: 2 and 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

6385

This project provides funding for a study of the Freedom water treatment, storage and distribution systems, and of the Freedom and Hampstead sewer collection systems. The studies performed will include asset conditions, expected life, capacity conditions, system breaches, etc.

Waters Edge Pump Station Rehabilitation

District Location: 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

6442

This project provides funding to rehabilitate the Waters Edge Pump Station, which was built in 2001, with a new pump assembly, roofing, updated electric controls, grinder, paving and fencing.

Winfield Pump Station Upgrade

District Location: 5

Stephanie R. Krome, Management and Budget Analyst (410) 386-2082

Proj #

This project provides planned funding to rehabilitate the Winfield Pump Station, built in 1993, with new pumps, control systems, roofing, generator, bypass valving, and paving. This pump station was built by the Board of Education for Winfield Elementary on Salem Bottom Road.
